

# DUCTLESS HEAT PUMPS

## THE COOLEST THING IN COMFORT

Featuring

**RO454B**

Models: D5CMRAH,  
D5CLRAH, D5CSRAH

# WHY ARE SO MANY HOMEOWNERS GOING DUCTLESS?

Whether you're adding an extra room or converting an attic into a living space, you want your home renovation to be as comfortable as possible. Ductless systems deliver ultra-quiet and efficient comfort for practically any space and style. They also help eliminate hot and cold spots, making them ideal for garages, sunrooms, attics, additions and more.

## Environment

Tempstar® is committed to providing our planet and people with a better future by offering the best refrigerant for each application. After years of research, development and field trials, we will be transitioning to the use of R-454B, with a 75% reduction in global warming potential.

## Comfort Technology

Tempstar ductless systems continually adjust the compressor speed as conditions change—for consistent comfort with lower energy usage. Plus, enjoy year-round comfort with a system that offers dependable performance in temperatures from -13° F to 122° F.\*

## Efficiency

Our QuietComfort® Series units deliver up to 26.0 SEER2 and 13.9 HSPF2 ratings. And with ENERGY STAR® certifications on a number of ductless models, Tempstar ductless systems provide improved temperature regulation, increased energy and cost savings.

## Air Quality

Breathe easier with enhanced indoor air quality. Our built-in reusable filters (available in all indoor units) effectively remove odors, allergens and pollutants—for cleaner, fresher air and lower maintenance costs. Just pull them out, rinse them off and replace.

## Personalized Comfort

Connect up to six indoor units to a single outdoor unit—to deliver individualized temperature control in every room of your home. Once you decide what temperature you'd like a specific zone (or room) to be, the system will quietly maintain that temperature.

## Whisper Quiet Operation

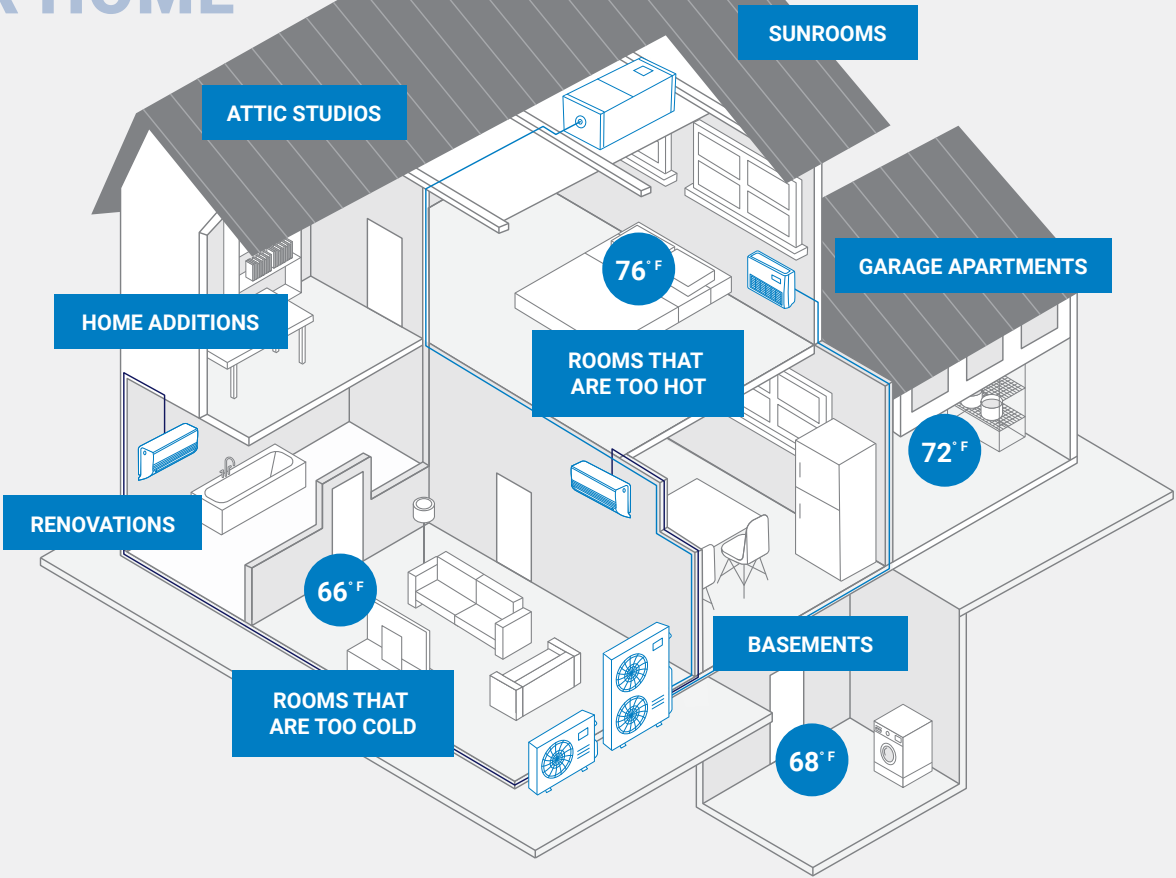

Ultra-quiet operation reduces noise pollution both indoors and out for more peaceful, comfortable spaces.

## No Hassle Warranty

To the original owner, the Tempstar Quietcomfort Series equipment qualifies for a 5-year No Hassle Replacement™ limited warranty. It means comfort with no questions. We'll replace your unit if the compressor or coil fails within the covered period.\*\* This provides extra coverage in addition to a 10-year parts limited warranty.\*\*\*

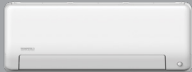

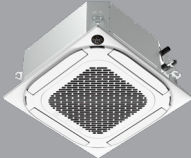

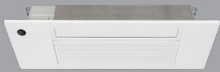

# CUSTOM COMFORT FOR EVERY ROOM OF YOUR HOME

## OPTIONS FOR EVERY SPACE & STYLE

Select the system that’s right for you or find the perfect combination for whole-home comfort.

High Wall	Floor Console or Underceiling	Slim Ducted	Ceiling Cassette	Air Handler	One-Way Cassette
