COMFORT WITH CONFIDENCE

When you choose Tempstar heating and cooling equipment, it means your home comfort is backed by advanced engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you exceptional quality, energy efficiency and reliability. We deliver products that deliver home comfort you can enjoy with confidence.

WHAT MATTERS IN AN ION 21 AIR CONDITIONER?

ENERGY SAVINGS

The Ion 21 Air Conditioner with SmartSense Technology delivers our best, energy-saving comfort. By stepping up to variable-speed technology, you can save energy while enjoying nearly continuous comfort. The Ion 21 air conditioner better matches changing conditions to provide more uniform comfort and higher energy efficiency than standard models. The Ion 21 air conditioner offers ENERGY STAR® qualified performance with efficiencies up to 21 SEER2 and 12 EER2.

CONSISTENT COMFORT

Operating much like adaptive cruise control in your car, Heil variable-speed air conditioners with SmartSense Technology make many small variations to speed as conditions change so your system maintains steady temperature and consistent humidity control and comfort for your home.

CONVENIENCE

For the ultimate of comfort, efficiency, and convenience, include the Ion Black System Control with Wi-Fi® capability in your system. Just set your preferred temperature and let the Ion system do the thinking for you, automatically adjusting for outstanding performance.

QUIET OPERATION

Enjoy comfort AND quiet – The Ion 21 runs much quieter than traditional single or two-stage units due to nearly continuous stretches of low-stage operation. In addition, the unit's compressor includes a sound jacket for quieter performance.

ENVIRONMENT

With R-454B refrigerant, Tempstar proudly displays our commitment to environmental stewardship. It's a refrigerant that delivers a 75% decrease in global warming potential while maintaining the non-ozone depleting properties of R-410A.

PEACE OF MIND

Rest easy with a 10-year parts limited warranty upon timely registration. And get additional peace of mind with our 10-year No Hassle Replacement limited warranty™.

WHAT SETS TEMPSTAR ION 21 AIR CONDITIONERS WITH SMARTSENSE TECHNOLOGY APART?

Variable Frequency Drive -

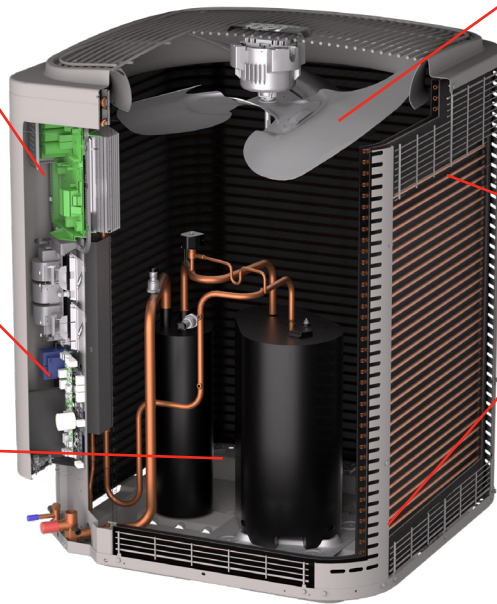

Powers the compressor and controls communication between components to optimize comfort and efficiency

SmartSense™ Technology

- allows the unit to operate in longer cycles and make many small variations to work more efficiently and deliver continuous comfort.

Variable-speed compressor -

Truly variable-speed compressor operation, providing our best temperature and summer humidity control

Variable-speed fan -

works with the compressor for best levels of quiet, efficient operation. Swept fan blade design improves airflow, enhances performance and reduces sound levels.

Weather and debris protection -

Durably built with tight wire grille and protective corner posts to withstand bad weather and debris

Ion Black Control -

Wi-Fi® enabled remote access with the Ion™ Black System Control.¹ Allows precise temperature control and humidity control along with programmable features to further customize your comfort.

TECHNOLOGY

EXCEPTIONAL PEACE OF MIND

Our No Hassle Replacement limited warranty backs every Tempstar Ion System product. It means comfort with no questions. We'll replace your unit if the compressor or coil fails within the covered period.* This provides extra coverage in addition to a 10-year parts limited warranty.**

COMPONENTS OF A COMPLETE TEMPSTAR ION COMMUNICATING SYSTEM

The Ion 21 Air Conditioner with SmartSense Technology operates best when matched with a compatible, communicating indoor unit and the Wi-Fi-enabled Ion Black System Control. All of the components of this communicating system work together to deliver exceptional comfort and energy efficiency. When this air conditioner is installed as part of a complete Ion communicating system, your home will operate at exceptional comfort levels no matter the temperature outside.

ION SYSTEM AIR CONDITIONERS

Our Ion System air conditioners can deliver cool, calm relief from soaring outdoor temperatures. From our exceptionally quiet and humidity-controlling fully variable-speed models with SmartSense technology to our single- and two-stage models that offer dependable comfort during warm weather, Tempstar Ion System air conditioners include features like available variable-speed scroll compressors, available multi-speed fan motors, and sound-reducing components and designs. Regardless of which model is right for you, we have an air conditioner for every home.
