

# GAS FIRED WATER BOILER

## WPSB SERIES 3

Up to 84.1% AFUE EFFICIENCY

- Available in 7 sizes from 75 MBH to 299 MBH.
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples. The Sections and Push Nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets the boiler maintains a water tight seal over time.
- Advanced Fuel Smart Hydrostat Control: 3 Functions in 1 Control
  - (1) Temperature limit with LED display and easy dial settings. Diagnostic and function indicator lights.
  - (2) Low Water Cut-Off (LWCO), protects the boiler from damaging low water conditions.
  - (3) Boiler Reset, lowers the boiler temperature to save fuel by turning on the burner only when needed. Set-up is quick with no need to install an outdoor sensor; just dial in the number of zones.
- Atmospheric Chimney Vent Boiler with Integral Draft Hood and Vent Damper. The Integral Draft Hood reduces the overall height and footprint of the boiler making it ideal for low clearance/space limited installations.
- Cast to Last Warranty:  
20 year non-prorated limited warranty.
- Innovative American Manufacturing.

(1) Input rating for sea level to 2,000 ft. (610m) above sea level. United States, over 2000 ft (610m) above sea level. Reduce input rate 4% for every 1000 ft (304m) above sea level.

(2) Net AHRI Water Rating shown based on piping and pickup allowance of 1.15. Consult manufacturer before selecting boilers for installation having unusual piping and pickup requirements, such as intermittent system operation, extensive piping systems, etc.

For forced hot water systems where boiler and all piping within area to be heated, boiler may be selected on basis of its heating capacity.
